CINDY K. NGUYEN

UX DESIGNER | PRODUCT DESIGNER

Seattle, WA | UX Design Portfolio | LinkedIn

A Seattle-based **UX Designer** and **Product Designer** specialist with a **full-stack development** background, bridging the gap between **technical engineering** and **human-centered design**. I stay at the forefront of **innovation** by implementing **AI to automate design workflows** and **scale consistent**, **accessible** design systems.

EDUCATION

University of Washington | Seattle, WA | Class of 2026 **Sep 2022 - Jun 2026**

The Information School (iSchool)

- Major in **Informatics Bachelor of Science**
- Focus on **Human-Computer Interaction (HCI)** and **Design Systems**

TECHNICAL SKILLS

UX Design	Interaction Design	Claude/Codex/Gemini/ ChatGPT
User Research	Prototyping	HTML/CSS/JavaScript/React/SQL

PROFESSIONAL EXPERIENCE

Computing For All | Software Development Apprentice **Aug 2023 - 2025**

- Developed modern **web applications** using **HTML, CSS, React,** and **JavaScript**, collaborating with teams to **design, code,** and **present** project websites.
- Streamlined development **workflows** and **version control** using **Git**, **Figma**, and **Agile methodology** to ensure smooth project delivery.
- Synthesized on a **last-mile project** in collaboration with **Bank of America**; leveraged **professional mentorship** and **fireside chats** to integrate **industry best practices** into final deliverables.

UW Sisterhood Initiative | Founding Member / Mentorship **Sep 2022 - Jun 2024**

- Supported a **cohort of over 50 women of color** at the University of Washington through **monthly mentorship** and **community-building workshops.**
- Collaborated with **30+ campus leaders** and peers to foster an **inclusive environment** centered on **leadership** and **identity.**
- **Guided 5 students** through the **tech** and **design** landscape by providing **tailored mentorship**, **resource mapping**, and **foundational guidance** to **support their career exploration.**

UX & INFORMATICS PROJECTS

ICHS Patient Experience Redesign | UX Designer / Product Designer **Jan 2026 - Jun 2026**

- **Jan 2026 - Present Led the UX redesign** of the ICHS patient portal, optimizing layouts for **enhanced readability** and **intuitive navigation** to improve overall **community engagement** for **low-tech literacy** and **multilingual patients.**

Bike Works Design System | UX Designer / System Designer **Jan 2026 - Mar 2026**

- Developed a **comprehensive design system,** including **typography** and **color palette**, to ensure **brand consistency** and **redesigned their website** using the new **design system component library.**

Crisis Dashboard Simulation | UX Designer & Cybersecurity **Sep 2025 - Dec 2025**

- Designed and prototyped a **gamified NIST-aligned dashboard** to **train** healthcare professionals in **cybersecurity incident response** and **threat mitigation (patient safety vs data integrity)**.
- Utilized **Figma** and emerging **AI design tools** to create a **dynamic crisis simulation**, focusing on seamless **user interactivity** and **intuitive data visualization**.
